

## Beat the Heat With our August Specials!

### What's Up Doc?

#### It's Finally Through the FDA!

Several of you have heard me talk about *Dysport, aka Reloxin*, as a European neurotoxin to give Botox a challenge in the U.S. market. What I'm reading/hearing in my professional materials is the perception that it is a little faster acting without any increase in "adverse events" and the duration was longer for some people. The **BIG** news is it will cost about 10% less to lose that unintended scowl! This will be reduced even more with the promotional programs from Medicis. Many of you already enjoy their regular rebates on *Restylane* and *Perlane*. During the month of August, save even more – **10% off** from CDLC! I have enjoyed the quality of Medicis products. Happy patients make me a happy doctor!

CDLC proudly welcomes the addition of *Dysport* treatments to our menu of cosmetic services and rewards you with an introductory 10% discount during the month of August!

### Another New Product . . .

#### EYESCREEN from ColoreScience!

**WHAT** is it? It is a unique mineral powder containing silicon, Titanium Dioxide and Zinc Oxide (2 vital UV sunscreen protection ingredients), with an SPF 30. It is especially designed for use around the delicate skin in the eye area.

**WHY** use it? To conceal, provide sun protection, diffuse fine lines around the eye AND help disguise discoloration under the eye!

**HOW** should it be used? **EYESCREEN** can be used on bare skin or after your eye cream, your skincare routine and foundation application. It can be worn alone, with eye shadow or with *ColoreScience's Pep Up Gel Pen*. Using a ColoreScience achromatherapy Spritzer after the **EYESCREEN** application will assist in "melting" the minerals to become "clear" but retain the luminosity.

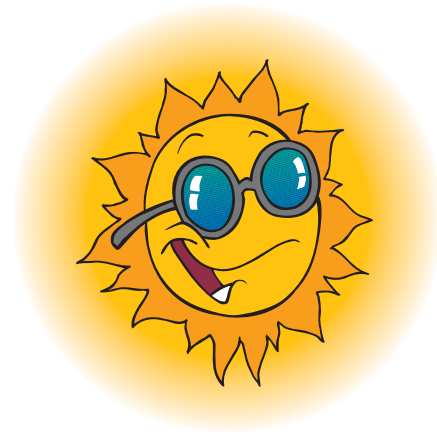

**EYESCREEN** even comes with its own petite fan brush and the Special August Price is only \$15.00. Pam says, "Eye love ColoreScience!"

### Did You Take the Tour?

By the time you read this, we will have drawn the name of one of you who played our "Tour de Core Four" and won an incredible ClarisonicPro Skin Care System. The fun continues...stop in and take part in our August drawing for a free glabella treatment with the new wrinkle sensation, Dysport!

### Did You Know . . .
