* She Asks "Wish You Had a Mask at Times?"

Dr. Lott knows how you feel and has an alternative: At one of my recent trainings we were discussing the evolution of our knowledge of how to get the most out of fillers in reshaping the aging face. The "secret" is to replace the roundness of the cheeks which seem in time to migrate to the jowls. We start life with the base of the facial triangle at the cheek level. It morphs into a trapezoid and then to a triangle with the base at the jawline. Personally, I am not a big fan of the volume of

fullness of Barbara Walter's cheeks but a little volume gives the face a nice, subtle lift. This is not an area that bruises easily but remember – I have the laser for bruising and will treat you at No Charge!! One of the best fillers for this area is **Radiesse**. The company is offering quite a deal for the month of October which I am excited to pass on to you . . . **Buy 1 (.8cc) syringe and get 1 (.8cc) free!** Now you get excited, you just saved \$400!

It Can be Scary

Like a creepy fog that appears out of no where, those unsightly **spider veins** seem to pop up over night and make us feel doomed to cover our legs forevermore. But wait! Dr Lott says she has some tricks in her treat bag that will have you back in those cute shorts and skirts once again. You know you've been meaning to do something about those areas and there's never been a better time to do it.... The weather is cooling off which means wearing the recommended hosiery post-treatment will be more comfortable **AND** you can take **10%** off this month!

Be Haunted No More

Our aesthetician isn't afraid to tackle your skin problems because Pam knows what the answers are. Working closely with Dr Lott in helping patients the past 12 ½ years has convinced her of one thing and that is the effectiveness the of the popular **SilkPeel** microdermabrasion treatment. Offered exclusively at CDLC, this rejuvenating "treat"ment simultaneously provides exfoliation while infusing skin-appropriate solutions into the dermis. Scientifically based and backed by clinical data of treatment efficacy, it is no wonder that this is one of Pam's most requested treatments. Want to save **10% on SilkPeels** in October?
