

We Thank You for 4 Great Years!

Celebrating CDLC's 4th Anniversary with a few of my favorite things....

Botox/Dysport: I have been emotionally dependent on my frown groove "eraser" since the Carruther's first training October, 1995. No cosmetic treatment works as well and is so simple. 10% OFF

Fillers: Restylane for the lips and fine lines. Using a tiny needle, I can smooth out the crinkles without giving you "fish lips." **\$100 OFF** 1.cc syringe. **Radiesse** for larger volume filling for those of us whose cheeks are now hanging out on our jowls. **\$100 OFF** 0.8cc syringe.

Pixel Laser: Finally, I can dust off my CO² Laser and start to really see the kind of skin improvement of past laser treatments. Recovery is 4 days instead of 2 weeks but you do have to think of it as a **series** of 3-4 treatments. 10% OFF

Sun Screen Products: The Number One Anti-Wrinkle Cream!! There are 3 other skin care items in the perfect program (See my 3/25/10 blog), r.e. topical retinoids and add the Clarisonic and DNA Repair Formula. 10% OFF all sunscreens and retinoids (tretinoin)

Don't know what you want?

Let's talk; I am the Queen of Baby Steps!

Pam says "Thank You" for 4 great years

with one of Dr Lott's favorites...the "Cadillac" of microdermabrasions: The SilkPeel. Featuring a medical-grade diamond tipped wand that infuses solutions for hydration, acne, or hyperpigmentation into the skin, this spa-like treatment exfoliates the outer layers stimulating new cell growth. 10% OFF

When we first opened our doors 4 years ago, it was not only the fulfillment of a dream come true, it was a desire to become a first rate cosmetic dermatology center that we could be proud of, from your initial phone call through the end of your treatment. Our goal was not to

become a mass-production- see-how-many-patients-we-can-see-in-a-day kind of operation. We strive to make sure that each person who walks through our door with concerns is heard and leaves feeling satisfied that their needs were met. Dr. Lott, being Board Certified, prides herself in providing expert medical care, continually reading journals to keep up to date on the latest treatment options and working with state-of-the-art equipment. Pam is not just an aesthetician. Her studies earned her the classification of "medical" aesthetician. There is a big difference in what she can do compared to your basic aesthetician.

We will continue to work towards providing friendly, knowledgeable care and hope that you will come back often to curl up in our comfy chairs and visit us!
