Boodles of Bundles this Month!

As you read through the list of specials we have in August, you may be wondering if the hot summer sun has made us a little crazy! Be assured, we just wanted to let you have a "say" in what treatments you would like to select and shower you with cool savings.

Thirsty?

One of the most essential things you must do to achieve and maintain radiant, healthy skin is make sure it is properly hydrated. That means drinking plenty of fluids AND using a good moisturizer both during the day and night. Drinking the fluids is easy. Figuring out what moisturizer works best for you is a little more complicated and that's where we come in. Just ask....we'll tell!

We Want to Reward You . . .

There is nothing more satisfying than having someone come in to see us and remark that they were referred by one of our patients. So, to show our appreciation, we would like to reward BOTH of you by offering 15% OFF a cosmetic procedure or product of your choice during the month of August.

Consider this: Most "knife-free" programs require a *series of treatments*.
Plan ahead... So you look your very best for the holidays.
